## Who we are.

Cloud School was founded in 2015 to provide digital learning solutions to schools across the African region. The system automates all operations of a school and is securely accessible from anywhere, anytime and using any device.

## KEY MODULES

### Administration

Online Admission of students. Management of parent, staff, classes and student records.

### Accounts and finance

Enables you to invoice, post fee payments, track balances, other income, expenses, assets and ledgers.

### Exam & Academics

Process report cards & analytics at the click of a button.

### Stores & Procurement

Keep track of what goes in and out of the stores. Manage requisitions and purchases

### Library

It helps you manage books and records in the school library.

### Transport

Our transport app notifies a parent when their child is dropped off or picked as well as tracks the school bus/van among other features.

## Digital Learning

Manage assignment, video lessons, digital material and much more.

## HRMS & Payroll

Manage staff and generate payslips with ease.

## Bulk Email & SMS

You can use it to send real-time notifications, Bulk SMS' and Emails.

## FEATURES

### Accessibility

Users are able to access the system via any device anywhere, any-time.

### Auto- Reminders

The system automatically reminds the parent their fee balances via email or sms.

### Multi-Campus

Manage all your schools and campuses from a single platform.

### Multi-Curriculum

It works with any curriculum from CBC, 8-4-4, ACE, IGCSE among others. It is ideal for use in primary schools, secondary schools and colleges.

### Automated Receipting

Our system is integrated with all major mobile money platforms like Mpesa and banking institutions.

### Advance Reports

It generates advanced academic and financial reports.

### Parents, Teachers & Students Portals

The system comes with parents, teachers & students portals and mobile apps.
